

BMG-555SC TRIPLE DISC GRINDER

A MIDDLE SIZED FLOOR GRINDER

The Blastrac BMG-555SC is equipped as standard with a speed control system and has been designed for the middle size grinder market. It is a machine easy to use with low vibrations. The BMG-555SC is equipped with a smart easy-to-use keypad that gives you all relevant information such as Amps, Volt, rpm... In addition, the adjustable steer handle includes a bottle holder, protection of operating buttons and storage place for smartphone.

The BMG-555SC is compatible with the patented Diamag magnetic adapter plates.

The BMG-555SC is designed for various sizes of horizontal surface preparation applications. It is an ideal machine for companies dealing with removal of coating, concrete grinding or polishing applications. The BMG-555SC triple head grinder is dust free when connected to the appropriate dust collection system.

3 GRINDING DISCS

The 3 planetary rotating discs in the BMG-555SC allows maximum coverage and effective pressure distribution.

DUST HOSE CONNECTION

The BMG-555SC triple disc grinder is equipped as standard with a local dust exhaust, a floating shroud and an extra nozzle for better suction performance.

SPEED CONTROL SYSTEM

The BMG-555SC is equipped as standard with a speed control system. It makes the machine ideal for all type of applications.

ADAPTER PLATE SYSTEM

The BMG-555SC is compatible with the patented Diamag magnetic adapter plates, where the diamond tools can be easily mounted on to the machine.

ADJUSTABLE STEERING HANDLE

The adjustable steering handle includes a smart easy-to-use keypad with all relevant information (Amps, Volt, rpm...), a phone holder and a bottle holder.

PERFECT FOR DECORATIVE FLOORING

The BMG-555SC is ideal for decorative applications such as floor polishing, bush-hammering and maintaining floors as well.
